### **A Message to Our Clients**

On March 19<sup>th</sup>, Pennsylvania Governor Tom Wolf mandated that all “non-life-sustaining businesses” discontinue their physical operations. DiGioia Gray is in alignment with this mandate at our Pennsylvania operations by continuing to work from remote locations.

We understand that many of our clients are considered essential, and/or life-sustaining businesses and continue to operate. Please be assured that DiGioia Gray remains **fully operational in all 7 of our office locations** with employees working remotely where needed.

We are all in this together and DiGioia Gray remains fully committed to serving our clients during this unprecedented and challenging situation.

Stay safe and healthy.
